

CANSARP V5.0 Program Component List

- MENUS / INFO OR TOOL BARS / SIDEBARS**
Any item on a menu (File, View, Managers, Help) or submenu that extends from one of these; any of the info or tool bars (Title bar, Manager bar, Tool bar, Status bar) apart from the VMS tool bar; any of the sidebars (Display Options, Current Forces, Wind forces); anything that's accessed via a menu or tool bar rather than a manager (e.g. Autosave, ruler tools)
- WIZARD**
Anything related to the Wizard
- SCENARIO MANAGER**
Anything related to the Scenario Manager, including file management (top half) and scenario parameters (bottom half)
- SEARCH OBJECTS / SEARCH OBJECT MANAGER**
Anything to do with search objects or the Search Object Manager that isn't specifically related to track lines.
- TRACK LINES / TRACKLINE MANAGER**
Anything related to track lines, to the Trackline Manager or to its interaction with the Search Object Manager
- WIND DATA / WIND MANAGER**
Anything related to wind data apart from opening or editing time series, including CMC winds and user entered winds (subjective winds); anything related to turning wind data on and off in drifts; anything connected to the Wind Manager
- CURRENT DATA / CURRENT MANAGER**
Anything related to current data apart from opening or editing time series or SLDMBs, including static data models (Tidal and Sea), dynamic models (IML and Grand Banks) and user entered currents (measured and subjective); anything related to turning current data on or off in drifts; anything connected to the Current Manager apart from the SLDMB tab and its dependent windows
- SLDMBS**
Anything related to SLDMBs or SLDMB data; anything related to the SLDMB tab of the Current Manager
- TIME SERIES EDITOR**
Anything related to the Time Series Editor or to opening, reading or modifying environmental data of any kind in the Time Series Editor
- SRUS / SRU MANAGER**
Anything related to SRUs or the SRU Manager that isn't related to search patterns or the Transit Editor, including SRU tasking and the SRU Database
- SEARCH PATTERN EDITOR**
Anything related to search patterns, including Probability of Detection
- TRANSIT EDITOR**
Anything related to the Transit Editor
- MARKERS / MARKERS MANAGER**
Anything related to markers or the Markers Manager
- SEARCH POLYGON / POLYGON MANAGER**
Anything related to manipulating the search polygon; anything related to the Polygon Manager
- MARINE CHARTS / CHART MANAGER**
Anything related to marine charts or the Chart Manager
- VMS MANAGER**
Anything related to the VMS, including the VMS database and the VMS tool bar
- NOTES EDITOR / LOG MANAGER**
Anything related to the Notes Editor; anything related to the Log Manager, including actions that should be logged but are not currently
- PRINTING / REPORTS MANAGER**
Anything related to printing or to the Reports Manager
- TRANSLATION / LANGUAGE**
French translation issues; incorrect terminology; typos or strange characters appearing in widget labels
- OTHER**
Anything not covered by another category above, including the Problem Report Form itself and other online resources.
